## Description:

The Sentry LP-WM Series of Embedded DVRs offer an extremely reliable and tamper-resistant platform that can be easily and securely mounted in a wide variety of locations due to its small, rugged design. Offering a unique blend of vital features and high speed, high quality video at very attractive prices, the LP-WM is suited for a wide variety of applications. The LP-WM is particularly well suited for use in small to mid-sized retail, commercial and franchised businesses.

Included with all Sentry LP-WM Series DVRs, the remote client software is an integrated security management system that provides both local and remote access to live and recorded video and all system settings, under password control. Video from multiple LP and LP-WM Series DVRs can be viewed and recorded on one remote PC. Remote access via a standard Internet browser is also built-in and provides a simple interface to view live video, control PTZ cameras and capture still images.
