## Description:

The Sentry LP Series of DVRs offer features that are vital to effective, reliable digital video security solutions at very attractive prices. By integrating a Linux™ operating system, commercial-grade components and hardware video compression, you can be assured that every LP DVR will satisfy the most demanding needs when it comes to overall value.

Included with all Sentry LP Series DVRs, the remote client software provides access to live and recorded video and all system settings. Video from multiple LP series DVRs can be viewed simultaneously defined by groups of cameras from each remotely accessible system. Remote access via a standard Internet browser is also built-in and provides a simple interface to view live video, control PTZ cameras and capture still images. Some important features are:

- Real-time streaming video and audio
- Multiple display modes
- Snapshot and image enhancement functions
- Sensor/Relay/Audio control
- PTZ camera control
- Remote video search and playback
- Remote DVR setup
