

Sentry GV-Mobile Digital Video Recorder

Features

Easy-to-use & Setup

Using either the on-screen menu or web-based control, the Sentry GV-Mobile DVR is easy-to-use and setup with an intuitive user interface.

Vibration and Shock Protection

Special rubber mounts combined with internal shock-mounted components offer a very high degree of protection against the rugged conditions typical of mobile DVR applications.

- 4 channels of video & audio
- Real-time (30fps/ch) recording & display @ 720 x 480
- MPEG4 compression
- On-screen menu and web-based control
- Continuous, motion and scheduled recording
- 4 alarm inputs, 4 relay outputs
- GPS tracking (GPS module required)
- Vibration and mechanical shock protection
- UMTS (UMTS module required) support

Description

The Sentry GV-Mobile DVR is a rugged and powerful mobile DVR with vibration and mechanical shock protection. The Sentry GV-Mobile DVR is feature-rich and offers an easy to set-up and configure user interface, accessible using a web-based control or IR remote control. Up to 4 cameras can be connected to the Sentry GV-Mobile DVR and it can record video at D1 (720x480 pixel) resolution at up to 30fps/ch (real-time). GPS tracking, remote access and back-up to a USB connected DVD-RW are optionally supported. The recording frame rate and resolution can be adjusted independently for each channel, as can brightness, contrast, hue and color saturation. Recording can be continuous, on motion, on alarm input and/or scheduled. Video can be monitored using a remote software application (optional).
