

Sentry LE-Lite Series (Embedded DVRs)

Reliable, easy-to-use, 4-8 Channels

Features

- 4/8 channel Linux-based embedded digital video recorders
- Embedded software/OS (no software on hard disk), for maximum reliability
- Simple, plug & play installation
- Infra-red remote control, on-screen programming or mouse/keyboard control
- Manages storage and recycles space automatically
- Simultaneous viewing, recording, playback and remote access
- Remote access by LAN, internet and dial-up are supported by standard browser
- Easy-to-use back-up to CD-RW drive is provided for critical events
- Record and display transaction data from your POS System

Description

The Sentry LE-Lite DVRs are full-featured entry level DVRs supporting 4 or 8 camera inputs at very attractive prices.

They provide an easy-to-use, excellent video quality solution with all the same features as the Sentry LE series of DVRs but with a reduced record/display speed of 30fps. The same Linux embedded architecture and H.263 and MPEG4 compression as the LE Series DVRs is provided for optimum reliability. Operation can be by IR remote controller (comparable to a TV or VCR), or by mouse, providing a comfortable "feel" for users with or without PC experience. In addition, these DVRs can be accessed remotely over the Internet or LAN. Various models of PTZ cameras can be controlled through the software, both locally and remotely.
